

# IBM Cloud Computing Talk

(Open to all staffs and students)

Thursday, 25<sup>th</sup> March 2010; 11.00am – 1.00pm

DK2, Faculty of Computer Science and Information Technology,  
University of Malaya

## **Cloud Computing: The Future of Computing! Or is it all just a mirage?**

Learn about the truth and the many myths that surround Cloud Computing and find out what a cloud can do for you, or more importantly: How you can make cloud your career!

By Abele Stoelwinder  
ASEAN Platform Sales Technical Specialist  
Systems & Technology Group  
IBM Singapore Pte Ltd

### **Speaker Biography**

Abele is part of the Systems & Technology Group's Platform team as a Advanced Technical Support Specialist supporting the Technical Sales business in the ASEAN region. His primary focus is on Deep Computing, as well as the Dynamic Infrastructure solution areas of Consolidation and Virtualization. He focuses on Cloud Computing, GRID, Virtualization, and High Performance Computing (HPC), but also supports Energy Efficiency solutions in the region. He furthermore is the regional Technical Sales person for IBM's Grid Medical Archiving System (GMAS) product.

Abele obtained a Bachelor's Degree in IT, focusing on Software Engineering while he was studying at the NHL Technical University in Netherlands. He then proceeded to work for several vendors as a Grid Computing Specialist, after which he moved into his current role at IBM. He is passionate about removing the technical barriers to adoption of emerging technologies by IBM's customers.
